Mr. Doug Hotchkiss  
Port of Seattle  
Pier 69  
P.O. Box 1209  
Seattle, WA 98111

Mr. Hotchkiss:

As we discussed this morning, Burlington Environmental Inc. is seeking permission from the Port of Seattle to use well MW-39-3 in the Interim Measures LNAPL (product) recovery system to be submitted by Burlington at the request of the USEPA. (Gearheard/EPA to Lavoie/Burlington, March 29, 1994; copied to Hotchkiss/POS). The March 29th letter lists well MW-39-3 is one of eight wells subject to LNAPL recovery as an interim measure to address contamination at the Burlington Pier 91 facility.

Burlington is proceeding to design the interim measures system utilizing well MW-39-3, and will provide the Port of Seattle with a copy of the Draft Interim Measures Workplan upon submittal to USEPA.

Burlington respectfully requests that the Port of Seattle acknowledge in writing that Burlington be allowed to use well MW-39-3 for interim measures LNAPL recovery.

If you have any questions please contact me at (206) 227-6121.

Sincerely,

John Stiller  
Project Coordinator
